The benefits of doing your Environmental Health & Safety (EHS) training with us here at Resolution are what set us apart from other training providers. We take the time to make sure that you are getting exactly what you need. We like to think of our clients as part of our team and we strive to make things as simple and stress-free as possible. We have made a condensed list of why we believe you would choose us for your EHS training needs.

Benefits:

- ✓ 30 years of experience
- ✓ Qualifies your certificate for an additional 2-6 states
 - ✓ EPA accredited courses
 - ✓ OSHA compliance training
- ✓ Create rapport, business/personal relationships
- ✓ Personalized, on-site training for large groups
 - ✓ Quick paperwork turnaround
- ✓ Manuals, regulations, and refreshments are FREE

"The Instructor made the class interesting - I learned a lot! Thank you for the great class."

- 2015 Asbestos Course Attendee

"I learned a great deal of information directly applied and helpful for my work. The instructor also kept it interesting with videos and hands-on."

- 2015 Asbestos Course Attendee

Our course catalog is quite extensive. We strive to assist you in keeping the working environment a safe and secure setting. Education is the one of the best ways to keep your business and employees current with new regulations, safety precautions, and techniques. Our 30 years of knowledge makes us expert in these lessons. All of our Asbestos, Lead and OSHA courses have been tailored to benefit working professionals.

Course content is accredited by the EPA, as well as recognized by OSHA, so you never have to worry about the validity of the content instructed.

Asbestos:

Supervisor Initial & Refresher
Inspector Initial & Refresher
Management Planner Initial & Refresher
Project Designer Initial & Refresher
Project Monitor Initial & Refresher
Worker Initial & Refresher
Class II Roofer & Floor Tile
Class III Operations & Maintenance
Class IV 2 Hour Awareness

Lead:

Supervisor Initial & Refresher
Inspector Initial & Refresher
Risk Assessor Initial & Refresher
Project Designer Initial & Refresher
Worker Initial & Refresher
EPA's Renovator, Repair, and Paint
Initial & Refresher
Lead Sampling Technician Initial &
Refresher

Other courses (classes we often offer, other courses offered in addition):

HAZWOPER 40 hour Initial and 8 hour Refresher
NIOSH (582 Equivalent)
OSHA General/Construction 10 hours / 30 hours
Confined Space Entry
Hazardous Communications
DOT
RCRA

Other special points of interest:

- Assistance with accreditation/certification questions
- Convenient line-up of courses
- In classroom, hands-on, interactive training
- Thorough review of material
- Course registration is reasonably priced, considering the multi-state accreditation, as well as the provided manuals and regulations.

Our course schedule updates often! We recommend you visit our website: (<http://www.resolutionusa.com/training.html>) for the latest updates on several of our classes.

Below are some courses that are less-likely to change:

Asbestos Initial Courses:

<u>Project Monitor</u>	April 11th-15th	8:00am-5:00pm	Nashville, TN

<u>Project Designer</u>	May 16th-20th	8:00am-5:00pm	Nashville, TN
<u>Inspector</u>	June 20th-22nd	8:00am-5:00pm	Nashville, TN
<u>Management Planner</u>	June 23rd-24th	8:00am-5:00pm	Nashville, TN

Asbestos Refresher Courses:

<u>Supervisor</u>	April 25th	8:00am-5:00pm	Knoxville, TN
<u>Inspector</u>	April 26th	8:00am-12:00pm	Knoxville, TN
<u>Management Planner</u>	April 26th	1:00pm-5:00pm	Knoxville, TN
<u>Project Designer</u>	April 27th	8:00am-5:00pm	Knoxville, TN
<u>Project Monitor</u>	April 28th	8:00am-5:00pm	Knoxville, TN
<u>Supervisor</u>	May 2nd	8:00am-5:00pm	Nashville, TN
<u>Inspector</u>	May 3rd	8:00am-12:00pm	Nashville, TN
<u>Management Planner</u>	May 3rd	1:00pm-5:00pm	Nashville, TN
<u>Project Designer</u>	May 4th	8:00am-5:00pm	Nashville, TN
<u>Project Monitor</u>	May 5th	8:00am-5:00pm	Nashville, TN
<u>Worker</u>	May 6th	8:00am-5:00pm	Nashville, TN

Lead Initial Courses:

<u>Renovator, Repair, and Paint</u>	March 25th	8:00am-5:00pm	Nashville, TN
<u>Worker</u>	March 31st-April 1st	8:00am-5:00pm	Memphis, TN

Lead Refresher Courses:

<u>Renovator, Repair, & Paint</u>	April 15th	8:00am-12:00pm	Nashville, TN
<u>Renovator, Repair, & Paint</u>	April 29th	8:00am-12:00pm	Memphis, TN
<u>Renovator, Repair, & Paint</u>	May 20th	8:00am-12:00pm	Nashville, TN

Other Courses:

<u>Asbestos Class III O&M Initial</u>	March 28th-29th	8:00am-5:00pm	Nashville, TN
<u>Asbestos Class III O&M Refresher</u>	March 30th	8:00am-5:00pm	Nashville, TN
<u>8 Hour HAZWOPER (Refresher)</u>	April 8th	8:00am-5:00pm	Nashville, TN
<u>40 Hour HAZWOPER (Initial)</u>	June 13th-17th	8:00am-5:00pm	Nashville, TN

For a full list of courses that we provide and an updated schedule, please visit our website: <http://www.resolutionusa.com/training.html>

WASHINGTON, D.C. - The U.S. Environmental Protection Agency (EPA) recently announced 75 enforcement actions from the past year that require renovation contractors and training providers to protect people from harmful exposure to lead dust and debris, as required by EPA's Lead-based Paint Renovation, Repair, and Painting (RRP).

We also would like to inform you, if you do not already know that the EPA had, last year, extended the dates of the RRP Individual certificates. The specific expiration dates are posted here:

<http://www2.epa.gov/lead/getcertified> .

Getting certified or re-certified is easy! Schedule your Initial or Refresher course with us (<http://www.resolutionusa.com/training.html>), then apply or re-apply at the EPA website (<http://www2.epa.gov/lead/getcertified>) to receive your firm and individual certification.

Confined Space Entry -- Final Rule, Violations Begin

SUMMARY: OSHA has added a new subpart to provide protection for employees working in confined spaces in construction. This new subpart replaces OSHA's one training requirement for confined space work with a comprehensive standard that includes a permit program designed to protect employees from exposure to many hazards associated with work in confined spaces, including atmospheric and physical hazards.

- visit this OSHA site to see articles including:

<https://www.osha.gov/confinedspaces/index.html>

"Protecting Construction Workers in Confined Spaces:

Small Entity Compliance Guide"

This is a great article, as it gives you helpful tips, including:

"Work Covered by the Standard"

"Identifying Permit Spaces" &

"Entrants, Attendants, and Entry

Supervisors"

For more information about any of this material, please contact us at 615-865-8813 or training@resolutionusa.com. Or you can visit our website: <http://www.resolutionusa.com/training.html> where you can find our most recently updated schedule, hotel recommendations, information about all the courses we provide, etc.

NEW! Global Harmonization for Hazardous Communication

Hazard Communication Standard

In order to ensure chemical safety in the workplace, information about the identities and hazards of the chemicals must be available and understandable to workers. OSHA's Hazard Communication Standard (HCS) requires the development and dissemination of such information:

Chemical manufacturers and importers are required to evaluate the hazards of the chemicals they produce or import, and prepare labels and safety data sheets to convey the hazard information to their downstream customers;

All employers with hazardous chemicals in their workplaces must have labels and safety data sheets for their exposed workers, and train them to handle the chemicals appropriately.

Major changes to the Hazard Communication Standard

Hazard classification: Provides specific criteria for classification of health and physical hazards, as well as classification of mixtures.

Labels: Chemical manufacturers and importers will be required to provide a label that includes a harmonized signal word, pictogram, and hazard statement for each hazard class and category. Precautionary statements must also be provided.

Safety Data Sheets: Will now have a specified 16-section format.

Information and training: Employers are required to train workers by December 1, 2013 on the new labels elements and safety data sheets format to facilitate recognition and understanding.
